

# SPOOKY GENERATOR X

FREQUENCY  
&  
TREATMENT LIST

# OVERVIEW

The Spooky 2 Generator X is the most comprehensive and flexible generator on the market today. We coupled this generator with our powerful Scalar PEMF system to bring fast, lasting results.

The system can run stand-alone or with a computer.

We have carefully developed 27 stand-alone selections to work with all clients and issues.

When run with a computer, you can unlock the power of bio-feedback, hunt and destroy viruses, create custom frequency sets, or search for thousands of issues.

# OVERVIEW cont.

The generator uses two separate channels so you can run multiple frequency sets at once. This can be beneficial for faster results.

Both channels send frequencies to multiple objects like handholds and scalar units which all interact with the client.

The system has room to grow with additional Scalar and Plasma units that will easily integrate with the Matrix Aura

# Frequency Delivery Types

---

The *Matrix Aura* transmits various types of frequencies via the Spooky X generator. It also delivers frequencies through sound and light, which are discussed in separate manuals.

---

The system uses **Scalar**, **Contact**, **Remote**, and **Digitizer** as the main methods of transmission. **Plasma** is available through Spooky X. We will discuss each of these types in the following pages.

# Scalar

- ▶ Our best way to send the frequencies is through the Scalar medium. The Scalar information can go through the clothing as well as the body of the person, thereby talking directly with the cells. The *Matrix Aura* takes advantage of that and uses its own exclusively designed Scalar transmitters housed in the lighting.
- ▶ Each of the eight housings holds a 144-sided crystal surrounded by a scalar-generating transmitter and Rare Earth magnets. This design allows for unprecedented energy transmission through photonic and magnetic fields.
- ▶ We have increased the power to these units 13-fold over the regular Spooky X generator, ensuring the most energy for each session

# Scalar cont.

- ▶ Scalar is developed a second way through the Spooky Remote. The remote is a smaller, less powerful unit designed to directly influence DNA placed inside the clamps. The Remote can be used stand alone or with the bio-feedback setup.
- ▶ Simply place a hair, nail or other sample from your body into the crucible and the generator will take care of the rest

# Contact Mode

- ▶ Contact Mode is direct skin contact with either TENS pads or Handholds.
- ▶ The Matrix Aura uses both types with great effectiveness.
- ▶ The Handholds have built-in power adjustment.

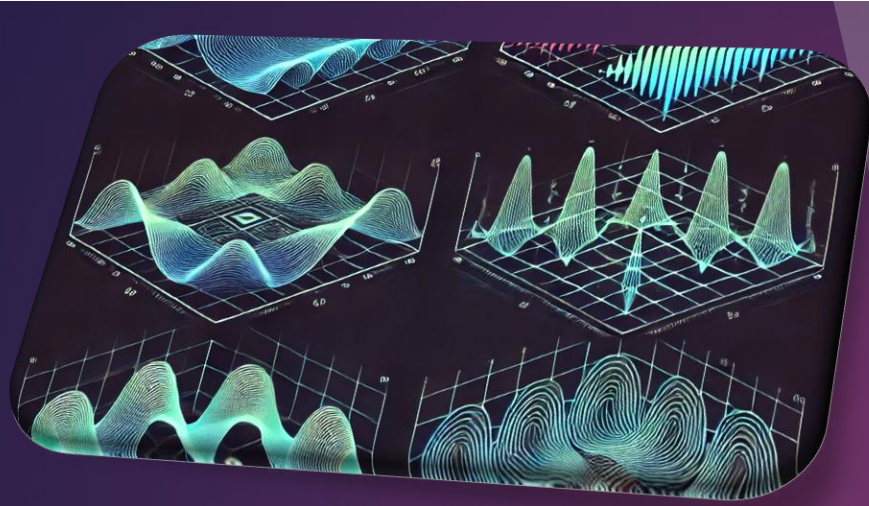

# Digitizer

- ▶ The Digitizer uses slides to sandwich your DNA like hair or saliva and reads the information through the real-time bio-feedback scanning software.
- ▶ The Digitizer can create frequencies just for you based off the type of protocols you give it. Typical protocols are Healing, Hunt and Kill, Scan.
- ▶ In order for the Digitizer to work, you need to hook a computer up to the USB-A connector on the front of the Matrix Aura system and run the Spooky software.

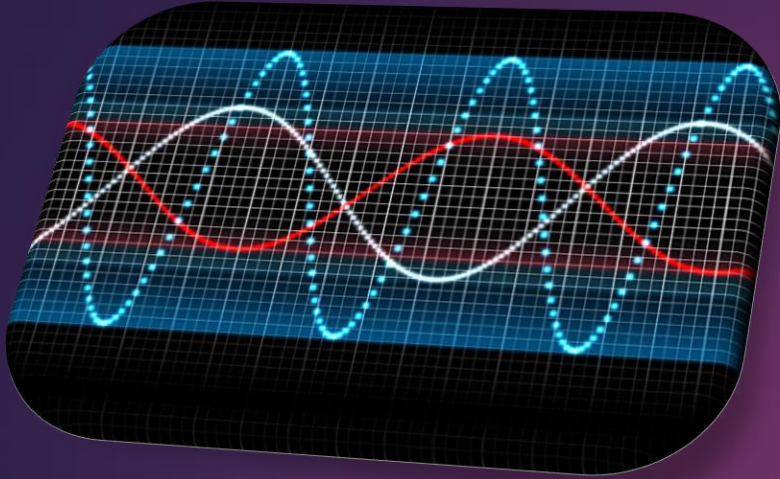

# Frequencies

- ▶ We have programmed in 27 specific programs designed for the most universal needs.
- ▶ We have left 3 positions open for custom files if the computer interface is used.
- ▶ Each program have specific adjustments made to the waveform to give the best effects. What this means is when using contact mode, each frequency set will feel different.
- ▶ Some sets are designed just for the Ligthbar while others are just for contact. The contact mode versions have lower power and softer pulses.

## Frequencies cont.

- ▶ While thousands of frequencies in the Database (found in [electroherbalism.com](http://electroherbalism.com) or built in table of the software) are designed around “killing”, we have found that support is most beneficial.
- ▶ If you try and “kill” a virus, you might end up missing it’s frequencies and doing more harm than good.
- ▶ Our approach is one of support where the theory is to help the body and allow it to heal itself.
- ▶ You can easily boost efficacy of vitamins, minerals, chakras, organs and other “static” or “known” frequencies and thus improve the function of the body.
